Noon – 1 p.m. | A complimentary lunch and academic and activities fair will be offered from noon-1 p.m. in Anderson Student Center. All afternoon guests must check in prior to attending lunch and the fair.

Breakout Options for Session I & II

Beyond the Classroom
Listen to current “Tommies” talk about St. Thomas life outside the classroom. Topics include what it's like being involved in clubs and organizations, faith life on campus, living in the dorms, athletics and traditions that make UST unique.

Financing Your St. Thomas Education
Learn about the value of a St. Thomas education and our commitment to our students. Discover how the St. Thomas financial aid process begins at the point of admission and ask our financial aid staff all of your questions.

Study Abroad: “It’s not if, it’s when”
Join current students, faculty and Study Abroad staff to learn how studying abroad can be an important and realistic part of your UST academic experience. You have more than 130 programs across the world from which to choose. All you need to do is decide when and where.

Results of a UST Education: Research Opportunities, Outcomes and Careers
Meet a panel consisting of career development staff, faculty and students to learn about research, internships available and resources to help you find a job after college.

Breakout Options for Session III

The St. Thomas Academic Experience
Hear from faculty, Academic advisors and a current student about the St. Thomas academic experience and the benefits and value of a St. Thomas education. Our panel members will share their personal stories and answer your questions.

The Opus College of Business
It’s not business as usual here at St. Thomas. Join the Opus College of Business faculty and staff to find out what makes our undergraduate business program unique and how a St. Thomas degree will prepare you for the future.

Biology and the Health Sciences
Careers in the sciences, including the biological and health related fields (such as pre: medicine, dentistry, veterinarian medicine, pharmacy, etc.), require professional level research experiences. Join this session to discover what you might find yourself working on if you become part of the St. Thomas community.

Communication and Journalism
Students in the Communication and Journalism department--or COJO, as it's known on campus--study all forms of communication and learn to create effective messages with words, images and sounds. A combination of course work, internships, professional organizations and activities prepares students for a range of careers in journalism, advertising, public and community relations, digital media, videography, and graphic design, to name a few. COJO also provides a solid foundation for students interested in graduate school or law school.

The School of Engineering
Does building a robot in a competitive environment pique your interest? At St. Thomas you'll be asked to roll up your sleeves, get your hands dirty, and wrap your mind around ideas that have the potential to change our world. Join this session to find out how faculty and students are doing just that – changing our world.
